Enning the Suburban Distance in 2:08 S-4 Without Extending Risself-Ben All's Shewing-McLaughlin and Garrison Pall. Stirring incidents were in order at Gravesend resterday. The first excitement came in the second race, in which McLaughlin had the mount on Ben All, the prominent candidate for the Suburban that was left at the post on Tuesday. The colt got off well, and was third at the quarter pole. McLaughlin had to warm him on the lower turn to hold his place, and the best he could do at the finish was to come in fourth. Saxony was favorite in the race, and won as he pleased in very fast time. It was a great day for favorite horses, but a sorry one for favorite jockeys. In the fifth race Mo-Laughlin had the mount on Luke Blackburn's on Tampa, that won the race for two-yearolds on Tuesday, running the half mile in 49M seconds in a cold, stiffening breeze, McLaughlin was holding the colt back with all his strength to prevent him from making a mad rush round the turn near the Boulevard club house, when the colt missed his stride, stumbled and fell, throwing McLaughlin to the track with terrible force. Garrison was riding Billy Brown directly in McLaughlin's wake, without a chance to turn aside. Horse and rider went down in a cloud of dust over Tampa and McLaughlin. The horses scrambled to their feet and cantered away, and the lockeys were taken from the track unconscious. Physicians restored Garrison in a short time, and it is believed that he was not seriously injured. McLaughlin was a long time in coming to his senses. Although the dectors reported that no bones were broken, it was thought that he would not be seen in the saddle again for come time. He was taken to Uncle Bill Daly's house near the track. Daly taught McLaughlis the science of riding, and holds the famous better. track with terrible force. Garrison was riding

Mr. J. B. Haggie's filly Firensi won the Gazele Stakes very handly, the Hon. W. L. Scott's Bily Flagcoletta, the favorite, being second.

Boston Defeats New York-The Brooklyns and the Indians Also Fall to Win. SHOWING HIS HEELS TO RIDALGO, BARNUM, AND ELEWOOD. Boston, June 16.—One of the best games played here this scason was that between the Bostons and New Yorks this Afternoon. The game was close up to the sixth inning, when heavy batting by the home to the sixth iming, when heavy outling by the home club and errors by the visitors piaced the former in the lead. The New Yorks played a plucky, though losing, game. Hornung batted heavily, and in the seventh ining made a phenomenal catch of a low his, turning a complete somerasult in the effort. He followed immediately with a home run, and when Keily repeated the latter performance there was pandamonium. Wise latter performance there was pandemonium. Wise mads two wonderful left handed stops, and was loudly cheered. Johnston, Nash, and Edward with bonquets from Equitier friends who are among the visiting Richmond Serans. Powers gave only poor satisfaction. The score:

SHOCKING TRAGEDY IN MARYLAND. A Young Man Shoots his Friend. Supposing

it was his Rival. CRISPIELD, Md., June 16 .- This community is shocked over the shooting of Elijah H. Sterling by his friend Dow Mister. Mister and young Robert Ford were rivals in the affections of Dora Sterling, the pretty daughter of Malon Sterling. A few weeks ago Ford had a Malon Sterling. A few weeks ago Ford had a falling out with the girl, and when she refused to be conciliated he told her that no one else should have her. Mister was told of these threats by the lady. At 10 o'clock last night he bade Miss Dora good-bye, and had hardly gone lifty yards when he saw a man approaching on the opposite side of the road. It was quite dark, but Mister thought he recognized Ford's figure, and he hailed him with. "Who is that?" There was no reply, but the party walked straight for Mister, and, when quite near, said: "Well, I'vo got you at last." Thereupon Mister fired, supposing the man to be Robert Ford. He was mistaken, as it turned out to be his friend Elijah Sterling.

"Oh, Ged, Dow," Sterling cried. "what have you done?" Oh, God, Dow, Sterling cried. What have you done?"
Mister then recognized his friend's voice and summoned assistance at the house he had just left. Mister has been imprisoned.
Sterling was about 24 years old and a man of superior attainments. Mister is about 20 and very handsome. Both families are among the best in Crisileid. Mister is well-nigh crazed with grief.

ASSASSINS IN LOUISIANA. ANOTHER TRAGEDY GROWING OUT OF THE WITKOWSKI EVICTIONS.

a Accest of the Rich Land Owner Shot and Rilled by a Party of Men in Ambush Riddled with Bullets and Buckshot.

NEW ORLEANS, June 16 .- Another assassination has been committed in West Carroll parish growing out of the Witkowski affair. In December last Simon Witkowski, the richest and owner and merchant in West Carroll, and member of the Legislature, was driven out of the parish, his store burned and his agent, who was also Postmaster of the town, assassinated. Witkowski had made himself very unpopular with his system of crop mortgages and evictions, and some attempt was made to excuse the mob's crime by charging that he had ground down the people of the parish, and that, ground down the people of the parish, and that, he having complete control of the legal machinery, there was no relief for his victims in the courts. The bitter feeling against Witkowski and the agents has never abated, and is as strong to-day as ever.

Among his agents was V. H. Tillery, who had lived for years in West Carroll, but moved to Ashton, in the neighboring parish of East Carroll, where he was managing one of Witkowski's plantations. Tillery was a popular man, and was not known to have any personal enemies. On Tuesday he went over to Floyd, the county seat of West Carroll, to attend to some business, While on his way home, accompanied by his brother-in-law, J. S. Griswold, he was waylaid and assassinated ten miles from the town. The two were riding along the public road through a dense wood when a party of men, believed to number four or more, who were lying concealed in the bed of a dry stream running parallel to the road, opened fire on them with Winchesters and shot guns. Tillery fell dead at the first volley, one ball going through his brain and another cutting thr e having complete control of the legal ma-

STRAUMBACH'S ALLEGED CONFESSION.

He had a Habit of Confessing the Rahway Murder, but Wasn't Even Arrested. The story told by Caspar Straumbach, who proclaims himself the murderer of the unknown woman at Rahway, though full of inconsisten cies and contradictions, has persuaded the Mayor and police of Rahway that Straumbach either is the murderer or knows who did com-mit the crime. They are now looking for "John, the Swede," mentioned in the "confession" as

mit the crime. They are now looking for "John, the Swede," mentioned in the "confession" as Straumbach's accomplice. Chief of Police Tooker of Rahway and State Detective Keron called on Inspector Byrnes at Police Headquarters yesterday, and the Inspector tried to convince them that they were on a wild goose chase over ground that he had exhausted many weeks ago.

Straumbach turns out to be a musical tramp, who is evidently desirous of gaining a little notoriety by the association of his name with what he conceives to be a first-class crime. His alleged confession at Salem. Ill., is by no means his first effort in that direction. During the early part of May last he was making himself quite conspicuous on the east side of this city, endeavoring to work himself into the sensation by confessing the crime to every chance comrade. The police looked him upbut refused to arrest him. Soon after making these uncalled for confessions, Straumbach disappeared.

Mayor Daley of Rahway said yesterday that until Straumbach's strange story was in some way confirmed no steps would be taken to believe there was something in the Straumbach story, notwithstanding its inaccuracies and manifest misstatements.

SWEEPING POLICE CHANGES.

The Whole Force at Union Township Dis-missed on the Sergeant's Demand.

At the meeting of the Union Township Council last night the Anarchist riot at Oak Cliff Park on Sunday afternoon was discussed. Conrad Schneider was called upon to explain why he had let the park to the Anarchists for a picnic, and said he did not know that they were picnic, and said he did not know that they were Anarchists until they reached the park. Patrick Timmony, the special policeman who was injured in the riot, sent in his resignation, and it was accepted. In his communication Timmony said that Herr Most and Justus Behwab had threatened to kill him for the part he took in the riot, and he had written to Most that he would resign.

Police Sergeant Waller also sent in his resignation, declaring that he did not propose to be in command of policemen who got drunk while on duty. Councilman Schwarz, who is also Chief of Police, begged the Sergeant to withdraw his resignation, and offered as an inducement to dismiss the objectionable policeman. The Sergeant firmly refused unless the entire force was dismissed, and after some discussion his demand was complied with. The force consisted of three men, exclusive of the Sergeant.

Supervisor Willis (Rep.) of the First ward said hotty: "It is nothing less than a piece of highway robbery—a deliberate, cold-blooded, heartiess steal." The man who has made this statement is no sentleman. I am no highway robber or any other kind of a robber, and I am ready to protect my honor either here or elsewhere against such slanders," retorted Supervisor Watson.

The motion was carried by a strict party vote.

He guarded their room faithfully until 8 o'clock on Wednesday morning, when they reported to him that they could not agree upon a verdict. CLOSING PRICEL

THURSDAY, June 16. The improvement in the commercial situa tion caused by the speculative collapses of the past few days, was further augmented to-day by the opinion of the Inter-State Railroad Commissioners relative to the enforcement of the fourth section of the law under which they are acting. This opinion appears to give encouragement to the railroads to protect their traffic against dissimilar competition; that is, traffic against dissimilar competition; that is, water transportation and foreign corporations which are not amonable to the law. Wall street regarded the opinion as favorable to an improvement in values. The market reflected moderately the change for the better in the general commercial situation. But it seems that foreign dealers appreciate the change more keenly than local operators. As was the that foreign dealers appreciate the change more keenly than local operators. As was the case yesterday, the most conspicuous buying to-day was by foreign houses. As the liquidation in Chicago progressed smoothly, and now seems to be over, without the impairment of any substantial interest, some of the larger operators of that centre are confessedly more confident as to the future of the stock market.

The greatest activity to-day was in Reading within the narrow range of \$ \text{P} cent. The price at the close was a little botter than yesterday. The bugbear of foreclosure of the Reading general mortgage appears to have been disposed of except so far as the bears are concerned. The conspicuously strong stocks, and they ranked second and thirdrespectively in point of activity, were Western Union and Louisville and Nashville. There was a good deal of vague talk of favorable developments affecting Western Union, but none of it could be traced to a taughlo basis. The improvement in Louisville and Nashville, which was chiefly due to foreign buying, was based in part upon the decision of the Inter-Stato Railroad Commissioners already referred to. The market was at times rather slow, but the dealings were well distributed, and any considerable demand for stocks caused an immediate improvement in prices.

FOR YOARS I was afflicted with the most acute form. Dr. Kennedy's Pavor-

ite Remedy-I say it with a perfect recollection of all that was done for me besides—is the only thing that gave me permanent relief. I have recommended the medicine to many people for Kidney disease, and they all agree with me in saying that Dr. David Kennedy's Favorite Remedy has not its equal in the wide world for this complaint.—Lyman Crawford, Druggist, Springfield, Mass. The Favorite Remedy has completely cured cases of Stone in the Biadder, from which relief has been vainly sought. Where there is a tendency to Rheumatio Gout speedy relief invariably follows its use. It never fails to restore health to the entire system. "Two weeks" use of Dr. David Kennedy's Favorite Remedy cured me of Stone in the Bladder."—S. W. Hicks, Pleasant Valley, N. Y. \$1, 6 for \$5. THE TORTILITA MINES.

The subscription books will remain open a few days is \$1.000,000, based on property pronounced worth \$13.0x0000 by competent authority. It comprises twelve developed mines and a mill in Pinal county, Arizona, a district known for its rich and generous de-posits of orc. The mines cover a territory three miles long, and there are over 150 acres of ore deposits. Over pincoso in bullion was taken out in the prospecting and development work. Two of the mines which are now being worked contain an inexhaustible supply of ore, averaging over \$60 per ton. They have been worked to the water level, where the ore concentrates in a solid body 42% feet wide, which has been tested thirty feet below, thus demonstrating their permanency. This is believed to be one of the largest and richest bodies of ore on this continent. Dividends will commence Sept. 1. Prospectus will be sent on application.
